Import Note on Model Fitment:

S&S 475 Cam and Calibrations Kits:
PN 330-0725 & 330-0726

S&S 475 Cam & Calibration kits are for use on 2017–2019 Harley-Davidson® touring bikes **only**. This kit is **NOT** to be used on 2020 and newer touring bikes.

This kit **DOES NOT** support any of the Harley-Davidson® Softail® models.

The PV-3 device becomes married to the vehicle once it is connected. If your motorcycle is not a 2017–2019 touring bike, **DO NOT** connect the PV-3 to your motorcycle.

Dynojet PV-3 Updates:

It is recommended that you visit tunes.dynojet.com and follow the instructions given on the website to check for any firmware or calibration updates that are available for your PV-3 device before downloading a tune file to your motorcycle.

For complete instructions on PV-3 updates, please reference the installation instructions provided with this kit.
